SUBJECT INDEX

A

Acute abdomen
equine, abdominal crisis in the horse: comparison of pre-surgical evaluation with surgical findings and results, 63
feline, an emphysematous, intra-abdominal mass in a cat: a case report, 78
Allam, Mark W., lecture, 57
Anesthetic technique; indwelling jugular catheterization technique in the dog, 80
Antibiotics, in shock patient; rationale for the use of, 24

B

Biopsy, intra-operative, and microscopy during exploratory laparotomies, 93

C

Carcinoma
primary gastric, of the dog: review and case report, 70
transitional cell, of the canine urethra: case report and review of the literature, 90
Catheter, indwelling jugular catheterization technique in the dog, 80
Colic, equine comparison of pre-surgical evaluation with surgical findings and results, 63
Cryptorchidism, equine: pre-surgical considerations and surgical management, 43

F

Fractures, canine and feline, femoral head and neck: review of 115 cases, 29

H

Heart, congenital defects, ventricular septal repair, 2

I

Infraspinatus muscle contracture in the dog, studies on the pathophysiology of, 8

M

Mastectomy, canine, simultaneous bilateral, 97
Muscle injuries, studies on the pathophysiology of canine infraspinatus contracture in the dog, 8

N

Neoplasia
primary gastric carcinoma of the dog: review and case report, 70
transitional cell carcinoma of the canine urethra: case report and review of the literature, 90

P

Perforator, 3-M, use in ventral decompression of the canine spinal cord, 12

R

Reimplantation, left lung, canine, surgical technique of, 18

S

Sciatic nerve injury, use of a tendon transfer for treatment of, in the dog, 85
Shock, treatment of, rationale for use of antibiotics in, 24
Spinal cord, ventral decompression of the canine, using the 3-M Perforator, 12
Stomach, primary gastric carcinoma of the dog: review and case report, 70
Surgery
abdominal, closure of abdominal incisions using a continuous polypropylene suture: clinical experience in 550 dogs and cats, 74
abdominal crisis in the horse: comparison of pre-surgical evaluation with surgical findings and results, 63
an emphysematous intra-abdominal mass in a cat: a case report, 78
cardiovascular, ventricular septal defect repair, 2
cryptorchid, equine, pre-surgical considerations and surgical management, 43
gastrointestinal, abdominal crisis in the horse: comparison of pre-surgical evaluation with surgical findings and results, 63
gastrointestinal, primary gastric carcinoma of the dog: review and case report, 70
musculoskeletal, use of a tendon transfer for treatment of traumatic sciatic nerve paralysis in the dog, 85
orthopedic, femoral head and neck fractures in the dog and cat: review of 115 cases, 29
spinal, ventral decompression of the canine spinal cord using the 3-M Perforator, 12
spinal, surgical management of traumatic atlanto-occipital instability in a dog, 39
technique, considerations for selection of suture materials, 48
urogenital, transitional cell carcinoma of the canine urethra: case report and review of the literature, 90
Surgical technique
closure of abdominal incisions using a continuous polypropylene suture: clinical experience in 550 dogs and cats, 74
indwelling jugular catheterization technique in the dog, 80
Suture materials
closure of abdominal incisions using a continuous polypropylene suture: clinical experience in 550 dogs and cats, 74
selection of, considerations for, 48
Trauma, spinal, surgical management of traumatic atlanto-occipital instability in a dog, 39
Tendon transfer, use of, for treatment of traumatic sciatic nerve paralysis in the dog, 85

U

Urethra, canine, transitional cell carcinoma of, a case report and review of the literature, 90

V

Ventricular septal defect, repair, 2

AUTHOR INDEX

A

ADAMS, S. B., 63
Alexander, J. W., 90

B

BARTELS, K. E., 97
Blakely, C. L., 57
Blevins, W. E., 2
Bojrab, M. J., 12

C

CHATBURN, C. C., 8
Crane, S. W., 39
